

DEFENCE FORCE RECRUITING STEM CAREERS SCIENCE CENTRE EXCURSION

Considering a Science, Technology, Engineering or Math's career? Did you know the the Navy, Army & Air Force have plenty of roles that need your STEM skills.

Right now we're recruiting for jobs that didn't even exist a few years ago such as piloting military drones and working in electronic warfare. In the future there'll be many more!

Come along to our STEM Careers Science Centre Excursion Event to learn more about these Defence opportunities. A STEM role in the ADF will see you working with some of the world's most advanced equipment, give you the chance to travel as well as provide nationally recognised skills.

At the STEM Pathways Activities Day, you'll interact with current serving military personnel with backgrounds in trades whilst enjoying some practical learning activities at the Spark Centre Interactive Gallery.

When: Thursday 15th August 2019

Where Arrival : Defence Force Recruiting Maroochydore
Bus To QLD Museum , South Brisbane

Time: 8.00am – 2.00pm (7.45am arrival)

What's involved:

This event will include activities at the Spark Centre & a networking opportunity with the military team.
